Patan Muskan

Data Analytics · **Cloud & BI**

Bengaluru, Karnataka, India | +91 9019770581 | muskanpatan23@gmail.com | LinkedIn | GitHub | Portfolio

Profile Summary

Results-driven **Data Analyst** and **Power BI Developer** with hands-on experience delivering end-to-end analytics solutions across sales, retail, and business domains. Proficient in **Python (Pandas, NumPy)**, **SQL**, **Power BI**, **DAX**, **Power Query**, and **AWS (S3, Athena, Glue)**. Demonstrated ability to process 20,000+ records, design interactive KPI dashboards, and surface actionable insights that reduced manual reporting time by 30% and accelerated cross-functional decision-making. Experienced in EDA, statistical analysis, data modelling, and translating complex datasets into clear business recommendations for stakeholders.

Education

VTU, Belagavi — **Karnataka, India**
Bachelor of Engineering in Computer Science & Engineering — *2022 – 2026*

Experience

California Burrito — **HR Data Analyst Intern**
Sep 2026 - Present — *Bengaluru*

Zawr Industries LLP — **Junior Data Analyst Intern**
Oct 2025 – Dec 2025 — *Bengaluru*

- Processed, cleaned, and validated 20,000+ records, standardizing workflows and improving downstream reporting reliability.
- Conducted EDA and statistical analysis across business datasets, surfacing 5+ actionable trend findings that informed strategic decisions.
- Designed Power BI dashboards tracking 10+ KPIs, cutting manual reporting time by ∼30%.
- Performed ad-hoc SQL queries answering 15+ business questions per sprint, directly accelerating cross-departmental decisions.

Selected Projects

Ola Electric Market Share & Complaint Analysis | *AWS S3, AWS Athena, SQL, Power BI* 2026

- Ingested and structured raw VAHAN registration data for 5 EV manufacturers across 12 months into Amazon S3, organizing datasets for scalable cloud-based analytics.
- Used Amazon Athena to perform serverless SQL analysis directly on S3 data, calculating monthly market share, complaint-to-sales correlation, and manufacturer-wise trends across 60+ records.
- Identified that despite a post-May sales dip, complaint volume grew continuously throughout 2023 – evidence that Ola's service infrastructure failed to scale with rapid growth, a leading indicator of their 50% → 19.6% market share collapse by Q1 2025.

Coffee Shop Sales Analysis | *Power BI, DAX, Power Query, KPI* 2026

- Built a Power BI dashboard analyzing 149,000+ transactions across 3 NYC locations, identifying peak hours (8–10 AM) and top-performing products.
- Developed 10+ DAX measures including MoM Growth %, Profit %, and Avg Order Value using SUMX and time intelligence functions.
- Identified 85% sales growth Jan–Jun 2023 and a consistent 40% profit margin across all product lines through Power Query data transformation.

Retail Intelligence & Predictive Analytics Platform | *AWS S3, AWS Athena, Python, Streamlit* 2026

- Developed an AI-powered Retail Intelligence Platform on AWS monitoring 11 product categories with real-time KPI tracking for pricing, ratings, and inventory alerts.
- Built and deployed a price prediction ML model with MAE of 82.19, enabling data-driven pricing decisions across categories ranging from $4,626 to $5,844 average price.
- Designed interactive analytics dashboards featuring category distribution, low-stock alert systems (97 alerts), and retail price distribution histograms.

Technical Skills

Languages & Tools : Python (Pandas, NumPy), SQL, MS Excel (Advanced)
BI & Visualization : Power BI, Tableau, DAX, Power Query, Alteryx, Data Visualization
Cloud & Platforms : AWS (S3, Athena, Glue), Streamlit
Tools : VS Code, Jupyter Notebook, SQLite, GitHub
Concepts : Data Cleaning & Validation, Exploratory Data Analysis, Statistical Analysis, Trend & Pattern Analysis, Data Modelling, Dashboard Development

Certifications

Introduction to Data Analytics – Simplilearn
Data Analytics & Visualization Job Simulation – Accenture North America (Forage)
Free Data Analyst Course – Simplilearn

Publications & Leadership

Publication: AI- Powered Early Sepsis Detection System – *IEEE IATMSI-2026*

Leadership Role: Orientation Coordinator - Led a team of volunteers to manage fresher onboarding for 100+ students, coordinating logistics, scheduling, and peer mentorship activities across departments.
